PROFILE

I am an experienced underground coal mine operator and supervisor with over five and a half years experience leading ventilation crews at Anglo American Grasstree and Aquila Mines for Manuplex and Whisper Mining. Combining my mining and construction industry experience gives me a solid base for a variety of roles in civil, mining and construction.

EXPERIENCE

Ventilation Operator, Luna Mining, Ensham Mine - March 2025 - Present

Supporting crew supervisor in construction and maintenance of ventilation control devices with a strong focus on health and safety in accordance with the Coal Mining Safety and Health Act and Regulations. Following shift plans and supervisor instruction to work as a cohesive unit to meet planned outcomes and performance targets. Operation of mobile equipment. Transport and supply of product and equipment from storage areas to work sites.

Ventilation Supervisor, Whisper Mining/Manuplex, Anglo American Grasstree and Aquila Mines — 2019-July 2024

Leading ventilation crews in construction and maintenance of critical mine ventilation control devices and infrastructure with a focus on safety and economic delivery. Planning equipment and manning resource allocation to maximise efficiency and achieve shift targets. Ensuring Ventilation control devices are constructed in accordance with strict engineering specifications set out in standard operating procedures. Responsibility of ensuring work is carried out in accordance with the Coal Mining Safety and Health Act and Regulations. Meeting key performance indicators ensuring economic delivery of company products and services.

Ventilation Operator, Whisper Mining, Anglo American Grasstree Mine — 2017-2018

Supporting crew supervisor in construction and maintenance of ventilation control devices with a strong focus on health and safety in accordance with the Coal Mining Safety and Health Act and Regulations.
