

SHANE SCHLEGER

Sydney, NSW • 0415 994 541 • spschleger@gmail.com

CAREER PROFILE

Experienced underground coal **ventilation operator/supervisor** with 7+ years working in high-risk environments across Queensland mines (Anglo American Grasstree, Aquila, Ensham). Skilled in crew leadership, risk management, equipment operation, and building/maintaining underground infrastructure. Although I have not yet worked directly in tunnelling, my mining background provides strong crossover experience in underground operations, safety compliance, and infrastructure builds — enabling me to quickly train and adapt to tunnelling roles such as TBM operations, general tunnelling, and plant operations. Eager to bring proven underground discipline to Sydney's **Western Harbour Tunnel – Stage 2** project with ACCIONA.

CORE CAPABILITIES

- **Underground operations:** ventilation control device (VCD) construction & maintenance, ground support, materials handling
- **Safety leadership:** S123 Supervisor, G2 Risk Management, Standard 11 induction, advanced first aid, CMSHA compliance
- **Team leadership & collaboration:** crew coordination, resource allocation, communication with engineers and site supervisors
- **Equipment operation:** mobile plant, lifting operations, working at heights
- **Adaptability:** transferable underground skills suited for rapid upskilling in tunnelling environments (TBM support, grout/slurry plant, ring erection)
- **Commitment to growth:** enthusiastic to train into tunnelling systems and technology, leveraging extensive underground mine safety and infrastructure experience

RELEVANT EXPERIENCE

Ventilation Operator - Ensham Mine (UG Coal)

Luna Mining | Mar 2025 – Present

- Constructed and maintained ventilation control devices in line with engineering specifications and safety standards.
- Operated mobile equipment and managed logistics of materials/equipment supply underground.
- Delivered planned outcomes under strict safety compliance and shift schedules.

Ventilation Supervisor - Grasstree & Aquila Mines (UG Coal)

Whisper Mining / Manuplex for Anglo American | 2019 – Jul 2024

- Led crews in the construction and maintenance of critical underground ventilation infrastructure.
- Allocated resources, coordinated with engineers, and ensured compliance with legislation and site SOPs.
- Achieved shift KPIs safely and economically; mentored new operators in underground procedures.

Ventilation Operator - Grasstree Mine (UG Coal)

Whisper Mining | 2017 – 2018

- Assisted supervisors with VCD construction, site safety checks, and service crew operations.
- Operated mobile plant and supported product/equipment transport underground.
- Worked collaboratively to deliver shift outcomes to engineering and safety standards.

Leading Hand / Solid Plasterer - Civil/Building

Various Contractors, Mackay & Brisbane | 2005 – 2017

- Supervised small construction teams across residential, commercial, and industrial projects.
- Applied workplace health & safety principles while meeting strict performance and quality standards.
- Extensive experience with substrate preparation, coatings, and construction finishes.

TICKETS, MEDICALS & TRAINING

- **Construction White Card**
- **S123 Supervisor** (Risk Management, Safety Investigations, Communication)
- **G2 Risk Management** (Carry out risk management processes)
- **VCD Fundamentals** (RIIMCU212E, RIIMCU302F)
- **Advanced First Aid** (HLTAID014, HLTAID011, HLTAID010, HLTAID009)
- **Underground Lifting Operations** (RIIUND207E)
- **Work Safely at Heights** (RIIWHS204D)
- **Standard 11** (Surface & Underground)
- **QLD Coal Board Medical**
- Silica Awareness & RPE fit-tested: willing to complete immediately
- Confined Space & EWP VOCs: willing to obtain quickly

WHAT I BRING TO ACCIONA (TUNNELLING)

- **Transferable underground expertise:** 7+ years in coal mining equips me with the situational awareness, safety discipline, and physical skills to transition seamlessly into tunnelling roles.
- **Quick learner:** accustomed to mastering complex underground procedures and equipment; confident in upskilling into TBM, ring building, grout/slurry plant operations.
- **Safety first mindset:** proven compliance with stringent mine safety legislation, inductions, and risk management protocols.
- **Team collaboration:** experienced in leading and supporting crews under pressure in challenging environments.
- **Motivated to grow:** committed to building a long-term career in tunnelling, aligned with ACCIONA's values of sustainability and collaboration.

REFEREES

- **Tim Howard** - ERZ Controller, Ensham Mine | 0447 228 538
- **Mark Vucas** - Project Manager, Manuplex (Aquila Mine) | 0412 187 967
- **Lachlan Robins** - Former Project Manager, Manuplex/Whisper Mining | 0455 662 861
- **Eddie Algie** - Former Project Manager, Whisper Mining (Grasstree) | 0447 765 788
