Dear Masterwall Hiring Manager,

I would like to express my interest in your Patch Renderer role as advertised on Seek. With my experience I am a perfect candidate for your company.

I have twelve years experience as a Solid Plasterer/Renderer across a wide variety of residential, commercial and industrial projects and have extensive experience with all major product types and substrates.

For the last eight years I have been working in the coal mining industry leading teams in underground construction of ventilation control devices.

I have a strong safety focus and am very proud of my record of having zero personal incidents in my career and zero incidents on my crews while supervising.

I have strong written and verbal communication skills, computer literacy and adherence to procedure and have extensive experience managing manning and economic, profitable delivery of company products and services.

Thank you for considering my application and I look forward to speaking with you about how I can contribute to your operations.

Regards,

Shane Schleger.
